

Organization	Capenergies	
Type	Cluster / SME association (non-profit organization)	
Country	France - PACA region	
Contact	Céline Auger, Project Manager Email: celine.auger@capenergies.fr Mob: (+33) 6.14.46.13.12	
Address	Technopôle de l'Environnement Arbois-Méditerranée Bâtiment Henri Poincaré Domaine Petit Arbois Avenue Louis Philibert - CS 30658 13547 Aix en Provence Cedex 3	
Website	www.capenergies.fr	

Keywords: Smart grids, energy management, efficiency, consumer engagement, self-consumption, hydraulic, electric vehicle, public lighting, heating and cooling, storage, virtual power plant, training, waste management, water-energy.

Profile type: Partner in EU projects in Horizon2020, MED, Alcotra, Maritime, Alpine Space.

Brief description:

The cluster has set the goals of fostering innovation, accelerating members' growth and creating value in its territories. CAPENERGIES therefore supports the market launch of new products and services, encourages business networking and assists members on their way to securing a premium position in the energy sector. Currently a benchmark player in innovative renewable and carbon-free energy solutions, CAPENERGIES focuses on three strategic market-oriented areas:

- Improving energy efficiency
- Securing energy supply and self-sufficiency of isolated sites and areas
- Increasing the portion of carbon-free energies in the energy mix

CAPENERGIES has more than 550 members specifically in the energy industry and works with industrial, research and higher education partnerships in **Provence-Alpes Côte d'Azur, Corsica, the Reunion and Guadeloupe Islands.**

Current projects:

- ❖ **EMILIE – Enhancing Mediterranean initiatives leading SMEs to innovation in building energy efficiency technologies** (www.emilieproject.eu)

- ❖ **MARE – Mediterranean Activities for Research and Innovation in the Energy sector** (www.mare-euomed.eu)

- ❖ **TOWERPOWER – Research for SME Association project on the field of monitoring defect in offshore wind turbines** (www.towerpower.eu)

What we can do:

- Expertise in community building
- Stakeholders engagement
- Dissemination activities
- Supervision and coordination of pilot actions implementation (demonstrators)
- Capitalization of results
- Strong administrative and communication support staff
